

Since 1964 (43 years) The Answer has been supplying its renditions of top 40 hits, back then popular rock and today now classified as classic rock. Back in the seventies, The Answer was the official band of "The River" in Arizona. Summer season after summer season the band entertained sold out audiences and were the talk in not only Arizona but Southern California, where the majority of people flocked from, as the best cover rock band around.

The Answer's uncanny reproductions of all that's good in classic rock today sets them far above their competition. With stage energy, witty antics, and free giveaways, The Answer delivers a knock out show, whether in concert form or dancing venues.

From 2001 to 2005, The Answer was the official house band for the #1 Classic Rock radio station in Southern California, Arrow 93 FM. They have opened on stage for the likes of, Pat Benetar, George Thorogood and The Destroyers, Blue Oyster Cult, Bachman-Turner-Overdrive, Jefferson Starship, Dennis Quaid and The Sharks, Jim Belushi Band, Edger Winter Group, Michael McDonald, Journey, Yes, Foreigner, Cheap Trick, Eddie Money, The Association, Dave Mason, Super Diamond and The Fab Four.

The group has really aimed its sights in the last 10 years, on the concert in the park series that are put on by more and more cities each year. The Answer has a track record, second to none. Every year the high demand for the group causes cities to reschedule to off days to try and accommodate the bands busy schedule. The Answer plays to more people in the summer concert series than any other band in Southern California.

Lead singer Van Mosley has starred opposite of Broadway and LA star of The Phantom of the Opera, Dale Kristien, and sings every year the National Anthem at the Arrowhead Pond, Edison Field, Dodger Stadium and the Forum. Van also snagged the Drama Logue award for "best actor in a musical performance" for his portrayal of Daddy Warbucks in a regional production of "Annie". His impressionistic skills and dead-on tributes to the like of John Fogarty of Creedence Clearwater, Jim Morrison of The Doors, Tom Jones, or almost any top singer that you can think of, is simply amazing. No one can sing in so many different styles and pitches as Van. He has won numerous awards and placed in the original Star Search.
